Subject: Call Pastor Johnson from 1st Baptist Church re "Boycott HP" Resolution: 978-235-0515

Hi Denise,

Rev. Pastor Johnson from 1st Baptist called for you just now, he can be reached at 978.235.0515, and he was hoping to gain clarity on the "Boycott HP" resolution that may or may not be on the agenda on Monday night. He said that he's heard some stirrings in the community about this, but he wasn't really certain what "this" is and was looking for some facts about it. I explained to him that there's a significant amount of conversation going on in the community, and many people seem to be passing along information about this as if it is factual when it is more accurately just gossip, rumors, and half-truths - and I pointed out to him that it's not even clear if this resolution (which WE still haven't seen) even will have a sponsor. He said he appreciated hearing this and this helped clarify things for him, but I still think it would be a good idea for you to reach out to him.
